**BUILT ON
HONESTY.
INTEGRITY.
PARTNERSHIP.**

For more than 25 years, Rockin' S Truckin' has built its reputation by showing up—for its customers, its employees and its partners.

When Mike Standifer founded Rockin' S Truckin' in 1999, he wasn't simply starting another trucking company—he was building a business centered on relationships.

Today, Rockin' S has grown into a premier transportation company specializing in livestock and dry bulk delivery with pneumatic trailers while also operating end dump, belly dump, bottom drop, step deck, flatbed and RGN equipment across markets nationwide. Supporting that operation is a 24-hour dispatch center, 11 full-time mechanics capable of in-frame and out-of-frame engine rebuilds, a fully equipped roadside service truck and an onsite fabrication shop.

Those capabilities keep freight moving, but Mike says they aren't what truly define the company.

"We treat every customer as a true business partner," he says. "Success isn't measured simply by dollars and cents. It's measured by helping our partners succeed. Their success is our success."

**"Success isn't measured
simply by dollars and
cents. It's measured
by helping our partners
succeed. Their success
is our success."**

Mike Standifer, Founder
Rockin' S Truckin', Inc.

That commitment to partnership has shaped every decision Rockin' S has made for more than two decades. At the heart of the company are two values Mike believes can never be compromised.

"Without honesty and integrity, you become just another trucking company."

Those values are just as evident in the way Mike and Cindy invest in their employees. Rockin' S provides safety bonuses, health insurance with the company covering 80 percent of employee premiums, and a 401(k) with matching contributions—benefits that are uncommon for a company of its size.

For Mike and Cindy, taking care of people isn't simply good business—it's the right thing to do.

That commitment has helped create a workplace where employees build careers, not just jobs, and where people know they're valued. It's a culture that has become one of Rockin' S's greatest competitive advantages.

Looking ahead, the company remains focused on improving efficiencies, strengthening operations and expanding into new markets while staying true to the values that have guided it since day one.

A PARTNERSHIP THAT SHOWS UP

Rockin' S's relationship with Bruckner's Truck & Equipment began with something remarkably simple: Someone showed up.

"Bruckner's came in with the goal of building a relationship on both the Sales and Service side of our business. Dustin Kelter, the Fort Worth Team and Mack Trucks have continued to prove that true partnerships still exist in this industry."

Mike Standifer, Founder
Rockin' S Truckin,' Inc.

What began with Mack Pinnacle® models evolved into Anthem® trucks, and today Rockin' S has added several of Mack's new Pioneer™ models to its fleet.

Dustin Kelver
Bruckner's Sales
Representative

"After just a few visits, it became obvious what makes Rockin' S special — the people. They've built a culture that attracts exceptional people."

When the company purchased its first Mack truck, Rockin' S operated approximately 150 trucks, with nearly all of them from another major manufacturer. Despite the size of the fleet, Mike says neither the manufacturer nor the local dealer invested much effort in building a relationship.

That changed when Bruckner's Sales Representative Dustin Kelver walked into the yard. "He walked into my office and told me he was going to convert me," Mike recalls with a smile. More importantly, he kept showing up.

What began with Mack Pinnacle® models evolved into Anthem® trucks, and today Rockin' S has added several of Mack's new Pioneer™ models to its fleet. "All three models have been great additions to our fleet and have significantly improved our uptime by reducing mechanical breakdowns," Mike says.

But for Mike, the trucks are only part of the story. "Bruckner's came in with the goal of building a relationship on both the sales and service side of our business. Dustin Kelver, the Fort Worth team and Mack Trucks have continued to prove that true partnerships still exist in this industry."

For Dustin, that partnership has always been about much more than equipment. "After just a few visits, it became obvious what makes Rockin' S special—the people. Whether I was talking with drivers, the office staff, the shop team or management, everyone spoke highly of Mike and Cindy. They've built a culture that attracts exceptional people, and that's why they've been so successful. It's been a privilege to build this partnership, and I'm proud to call many of them friends."

After more than 25 years, Rockin' S Truckin' continues to prove that lasting success isn't built solely on trucks or trailers.

It's built by people who show up. They show up for customers by treating them as partners. They show up for employees by investing in their well-being. And they show up for relationships that grow stronger over time.

It's a simple philosophy—but one that has carried Rockin' S from a startup in 1999 to one of the industry's most respected transportation companies.

"Great favor rests upon you, for you have believed every word spoken to you from the Lord."
